Financial Letter from Secty Chane.

The following recent letter from the secretary of the treasury is addressed to the president of one of the Boston banks: TREASURY DEPARTMENT, Oct. 23. My Dean Str :- I am much surprised

by the atatement you say has been made by one who ought to know, that the gov ernment intend to ro'use payment of the 5 per cent, and 4 per cent, temporary deposits, in anything but 6.20s. I certainly have never entertained a thought of paying them in anything except the currency in which they were received, that is to say: United States notes; unless, indeed, they are paid in gold.

The idea that they are to be paid in any thing but money, however, is only about as absurd and groundless as the statement that the national debt amounts to two thousand willions of dollars; and yet, this statement was gravely put forth in the leading resolution of the conservative convention which met the other day at Faneuil Hall. On the day that resolution was adopted, the national debt amounted to less than \$640,000,000. I wish I had thought of it, and I would have obtained the precise figures at the department before I came down, (I am writing at my house,) and I would have given them to you. Six hundred and forty millions, compared with what we have to show for the expenditure of our part of it-seventy odd millions, you know, was the legacy of the Duchanau administration -is bad enough. I certainly do not contemplate it with complacency. With still less complacency do l'contemplate its increase actual sinco the resolution was adopted, and prospective for the year, at the rate of a million and a quarter a day. But still six hundred and forty millions is not two thousand millions, nor do I think it wise or patriotic to state it at two thousand whon six hundred and forty represents the truth. It was said doubtless by mistake.

You may show this letter to whom you please, and if you choose, though it is writton with a ranning pen, as you see, print the substance of it. S. P. CHASE.

DON'T BORROW A SOLDIER'S OVERCOLT. A pretty good story is told of one of our citizens who seems to have an unfortunate habit of involving himself in false positions. Two or three days since he borrowed a soldier's overcoat from a resigned officer of the army, and was flourishing about [ town in the garment, when he attracted the attention of a member of one of the comnanies stationed at Camp Porter, who was out on a hunt after deserters. The soldier accosted him and inquired where he got that cont. He replied that he "took it from a peg 3" whereupon the soldier pulled out a pair of handcuffs, and told him he was a prisoner. The citizen stood against for a moment, but the soldier being a stout, determined fellow, it did not seem prudent to resist, and the citizen's wrists were soon invested with the bracelets. He was then marched to the police office, where the nuthorities refused to take charge of him, and thence to the office of Capt. Mooney, in the Areade. Surgeant Fogartia, who was in charge, bappened to know him, and he was released from custody, greatly to the indig nation of his captor, who insisted upon his being a deserter, or at least that he had come in possession of the coat by unlawful means. The story leaked out, and is caus ing a good deal of merriment at the expenso of the victim .- Rochester (N. Y.) Democrat.

Financial Letter from Sec'y Chase.

The following recent letter from the secretary of the treasury is addressed to the president of one of the Boston banks; TREASURY DEPARTMENT, Oct. 23. MY DEAR SIE:-I am much surprised by the statement you say has been made by one who ought to know, that the gov ernment intend to re use payment of the 5 per cent. and 4 per cent. temborary deposits, in anything but 5.20s. I certainly have never entertained a thought of pay. ing them in anything except the currency in which they were received, that is to say: in which they were received, and United States notes; unless, indeed, they

The idea that they are to be paid in anything but money, however, is only about as absurd and groundless as the statement that the national debt amounts to two thousand millions of dollars; and yet, this state-ment was gravely put forth in the leading resolution of the conservative convention, which met the other day at Fancuil Hall. Ou the day that resolution was adopted, the national debt amounted to less than \$640,000,000. I wish I had thought of it, and I would have obtained the precise figtires at the department before I came down, (I am writing at my house.) and I would have given them to you. Six hundred and forty millious, compared with what we have to show for the expenditure of our part of it—seventy odd millions, you know, was the legacy of the Buchanan administration -is bad enough. I certainly do not contemplate it with complacency. With still less complacency do I contemplate its increase actual since the resolution was adopted, and prospective for the year, at the rate of a million and a quarter a day. But still six bundred and forty millions is not two thousand millions, nor do I think it wise or patriotic to state it at two thousand when six hundred and forty represents the truth. It was said doubtless by mistake.

You may show this letter to whom you please, and if you choose, though it is written with a running pen, as you see, prin the substance of it.

DON'T BORROW A SOLDIER'S OVERCOAT. A pretty good story is told of one of our ntizens who seems to have an unfortunate habit of invulving himself in false positious. Two or three days since he borrowed a soldier's overcoat from a resigned officer of the army, and was flourishing about town in the garment, when he attracted the attention of a member of one of the companies stationed at Camp Porter, who was out on a bunt after deserters. The soldier accosted him and inquired where he got that coat. He replied that he "took it from a peg;" whereupon the soldier pulled THE SUBSCRIBER has a very large stock of all the different kinds of spectacles required for the various defects in everyight, made of the best mater all, which will be accurately fitted to the person needing shift will be accurately fitted to the person needing shift will be accurately fitted to the person needing shift will be accurately fitted to the person needing was a prisoner. The citizen stood aghast for a moment, but the soldier being a stout, determined fellow, it did not seem prudent to resist, and the citizen's wrists were soon invested with the bracelets. He was then marched to the police office, where the anmarched to the police office, where the authorities refused to take charge of him, and thence to the office of Capt. Mooney, in the Arcade. Sergeant Fogartia, who was in charge, bappened to know him, and he was released from custody, greatly to the indig-nation of his captor, who insisted upon his being a deserter, or at least that he had come in possession of the coat by unlawful means. The story leaked out, and is caus ing a good deal of merriment at the expense of the victim.—Rochester (N. Y.)

Forever float that standard sheet-Where breathes the foe but fally before us? With Freedom's soil beneath our feet, And Freedom's banner streaming o'er us!

We have never aunounced the result of an election in Rock county with more satisfaction than the present one. Prior to the election a good deal of apathy seemed to prevail, but well-directed efforts awakened the true-hearted friends of the government, and the consequence is a result which does them and the county the highest credit. Our opponents were active and boast ful, predicting a republican majority as low as 600. To aid in our defeat, a "union" movement was inaugurated and earnestly pushed. But notwithstanding these efforts and apparently apathetic feeling, the county rallied strongly, and gives 43,100 majority for Sloan and Lawrence, and a nearly equal majority for the county ticket, without the aid of the soldiers' vote, which if it could be or shall be fully polled, we believe will make the republican majority equal to Fremont's overwholming vote. Where all have done so well, it would be invidious to single out any particular locality for especial commondation, and we claim for the entire county the highest meed of praise. All honor and all praise to "OLD ROUE!" The simple story of her achievement is the best eulogy we can be-

While we feel well, as we have a right to, over the general result of the election in this county, we are especially gratified with the rebuke administered to the slanderers of Mr. Pember, the republican candidate for sheriff. No story was too infamous to be retailed against him: no slander too vile to cause any hositation in its circulation. His defeat was confidently predicted. His own town was to give 100 against him. probably the senate. They will have 10 or Janesvillo city was sure for 300 against 12 maj. him. for clerk, of the court is also worthy of special notice. No such charges were Pember; but Mr. A. was to be badly shaken by his opponent, Mr. Boss. The entire Scotch vote was to be arrayed against him; the English and other naturalised republicans were to desert him; and his election was a matter of serious doubt. Mr. Boss patroled the county, importuning his countrymen to support him, and was industrious everywhere in his own behalf. We fruitlessness of his labors, and the fidelity of republicans to their true men and competent officers.

"A team drove up with an effigy placarded "John Potter,' consisting of a scarecrow with a black mask to it. There was a bowie knife in the belt, and a chain around the neck. Another wagon had a poll crected over it, with a lot of hemp and a cabbage head on the top of it. Both were enthusiastically cheered by the democracy."

### Result in Rock County.

We have never announced the result of an election in Rock county with more satisfaction than the present one. Prior to the election a good deal of apathy seemed to prevail, but well-directed efforts awakened the true hearted friends of the government, and the consequence is a result which does them and the county the highest credit. Our opponents were active and boast ful, predicting a republican majority as low as 600. To aid in our defeat, a "union" movement was inaugurated and earnestly pushed. But notwithstanding these efforts and apparently apathetic feeling, the county rallied strongly, and gives 48,100 majority for Sloan and Lawrence, and a nearly equal majority for the county ticket, without the aid of the soldiers' vote, which if it could be or shall be fully polled, we believe will make the republican majority equal to Fremont's overwholming vote. Where all have done so well, it would be invidious to single out any particular locality for especial commendation, and we claim for the entire county the highest meed of praise. All honor and all praise to "Oln Rock!" The simple story of her achievement is the best enlogy we can bestow upon her.

### Standers Rebuked! While we feel well, as we have a right to,

over the general result of the election in this county, we are especially gratified with the rebake administered to the slanderers of Mr. Pember, the repablican candidate for sheriff. No story was too infamous to be retailed against him; no slander too vile to cause any hesitation in its circulation. His defeat was confidently predicted. His own town was to give 100 against him. Janesville city was sure for 300 against him. In Beloit he was scarcely to have a vote; and in other localities he was to run disgracefully behind his ticket. Look to the emphatic and satisfactory answer made by his own town, Johnstown; see what Beloit did for him, end how little Janesville against him, notwithstanding Mr. Howard's personal popularity here. Mr. Pember need not trouble himself about his ene; mies; they have taken care of themselves and written their own condemnation. To some extent, the result of the vote

for clerk of the court is also worthy of special notice. No such charges were made against Mr. Alden as against Mr. Pember; but Mr. A. was to be badly shak- jority. en by his opponent, Mr. Boss. The entire Scotch vote was to be arrayed against him; 17; Jackson, assembly, and Campbell, the English and other naturalised republi- treasurer, 15. cans were to desert him; and his election was a matter of serious doubt. Mr. Boss patroled the county, importuning his countrymen to support him, and was industrious everywhere in his own behalf. We point to the result as the evidence of the fruitlessness of his labors, and the fidelity of republicans to their true men and competent officers.

## The first Response from the Holdiers' Vote of the 30th Regiment.

We give below the first return of a regimental election in our Wisconsin regiments which has reached us, viz: the vote of the 30th regiment in camp here. It will be seen that even before they have been taught by the hard lessons of service in the field, the nature of the contest in which the nation is engaged, three fourths of them vote the republican ticket.

There being so many companies from Mr. Hanchett's district, where his opponent is a republican as well as himself, the vote on Congress is not as fair a test as that on

[Reported Exclusively for the Daily Gazetle.] MORNING DISPATCHES.

CAIRO, Nov. 4-Midnight. The rebels continue to amass troops at Holly Springs. All troops from Texas, Louisiana, Arkansas and Mississippi are being crossed over. They are in a sad plight. They need clothing, shoes and has. A county convention was held at Granada Nov. 2d to raise means and devise

measures of relief. The Grenada Appeal of the 13th says the truth is at least manifest that we are occupying a somewhat precarious defensive situation, hence the disappointment and uneasiness prevalent among all classes.

FIRST GREAT SNOW STORM OF THE SEA son.— The people of western New York are reminded that Winter is approaching by a snow storm of no inconsiderable proportions. The storm commenced on Salurday night and has continued pretty much ever since. If the snow has not molted rapidly it would now be at least eighteen inches deep on the ground in this city. As it is there are three or four inches of snow and slush upon the ground, making it very uncomfortable getting around.

The damage by the storm to the fruit trees and foliage of our city and vicinity is great. Look where we will along the streets and in gardens and we see broken branches lying upon the ground, and others bent under the accumizted weight of anow nearly to the ground. A considerable part of the apple crop is

out yet and it will of course be injured. But it is not valuable this year, so abundant is the fruit. Many grapes are out, but. they may not be harmed where the vines are firmly supported as they should be.

Advance in the Price of Paper.

Within a few days past the paper trade has been characterized by a very sudden and unprecedented advance. Manufacturers anticipate that the upward tendency made will average fully equal to thirty per cent, on all grades, and on some kinds is

The reasons for this advance are numerous. The manufacturers allege that the scarcity of the materials out of which paper is made, is the principal reason. Cotton waste, heretofore an indispensable ingredient in the manufacture of paper, has almost entirely disappeared from the market, and the chemicals used in preparing and finishing the article command much higher prices than formerly.

All kinds of printing paper, of course, feel this change of price as sensibly as any other. The white paper upon which this sheet is printed has advanced thirty five per cent in two weeks. Such paper as we use in our jobbing department for merchants' usually paid twenty cents per pound, cannot now be bought for less than thirty cents per pound.

The result of these fearful prices will be a general advance in the prices of newspapers and job printing, or the actual sus pension of such as cannot afford these enormously increasing expenses. We advise, our readers to renew their subscriptions to newspapers before the price is increased, and business men to get their printing done while prices are reasonable.-Mil. Wis.

Correspondence of the Janesville Gazette. From the Thirteenth Regiment.

Fuer Henny, Tenn., October 27th, 1862.

Messas, Engrans.-Seventy-six soldiers have arrived from Kansus, mostly belonging to the 12th and 13th Wisconsin regiments. These were the balance of the sick who were left at Fort Riley, Lawrence and Leavenworth.

One week from the time we took our our passage on board the boat at Ft. Leavenworth the joyful band belonging to the 13th was seen emerging from the deck of the Des Moines, making their way towards the eminence of the east bank of the Tennessee in safety. While we were in Paducah it was interesting to see the constant rush of men to the provost marshal's office for the purpose of taking the oath of allegiance. And upon conversation with them t was a puzzle to judge upon what principle their motives were founded.

We found the most of the men enjoying themselves, and their paramount endeavors was to make themselves comfortable and easy. The lively spirit once manifested in Camp Tredway was not quite as brisk as usual, but conformity to labor was more prevalent, and many of them were busily engaged fitting up their new camp ground which is just back of the fort on an eminence. Floors have been recently laid in the hospital tents which renders them much more fit for the sick, which number twenty. I find but eight companies of the 13th here Company D being at Hickman and company E at Smithland. There are about two thousand men here, under the command of Acting Brig. Gen. Lowe, distributed on both sides of the river and consisting of

parts of regiments and one battery. There is a direct communication from here to Fort Donelson, where there is an additional force stationed. There is no etreceived 85, with the exception of C. and in some superior, to those of other companies doing business in the northwest. Its rates, its plan of operations, and its basis, are identical with the best companies in this country and Europe. Its age, and consequently its accumulations, are not equal to theirs in amount, but in proportion to the age of risks, and amount at risk, they will compare tavorably with the most auccessful.

Its assets, which have resulted solely from their accumulations amount to \$115,-712.85, and its annual meome, from policies now in force, over \$85,000. Its assets and business are constantly in-

creasing. Its losses have been promptly paid. Its trustees are well known, honorable business men, and are as capable of managing an institution of this kind, as men in any other portion of the United States. The experience of the company thus far proves that we can have as reliable companies in the west as any where else, if we will, and self-interest certainly indicates that we should have them, and build up home interests in every practicable way. In the above respects, this company claims equality with its co-workers, and in the following superiority: It obtains the embracing every variety and style of work, from the greater portion of its business in the health-fluest quality of iest portion of the United States, thus having the advantage of a less per centage of loss: it receives higher rates of interest on its investments, thus making more rapid accumulations-both very important items in Life Insurance; and its expenses have been less in proportion to its business than any other new company doing business in the United States.

The company has a large number of lives insured in Jamesvals. Applications for inaurance received by the agent, Willard Merrill, et his law office in Lappin's block. oct22d3m

## PROCLAMATION.

ANNUAL THANKSGIVING.

To the Propagor Wisconsin: Am dat the manifold viciosi udes and calemities that have befallen and surrounded us, the extening the life of our netion and the lives of so many of itaker Laund noble sons, it particularly becomes us to turn with grateful hearts to the Supreme Being for the many blessings we have enjoyed, and the afflictions we have boon spared. The borco's and devastations of war, so thereely raglag ar und us, have not touched the border of our state; excep ing the brave men which we rath-daround our county's flig faithis time of peril, our citizens have been all well to pursue their praceful avocations; our ha vest, though not as abundant as Providence som-times has pleased to grant us has yet well comp-nested the labor bestowed upon it, and well filled our houses and burge; the savago tribes upon our border estilements, so threatening at one time to our peace,

have been quieted, and k pt under enryelitance The great can-nof our nather, it Is true, has not tritumphed per over its enemies, but neither has it yet failed; the enough is been driven from the sail of the loyal states; our comy bas been relaisee d by hundreds of the usands of brave, patriclic and noble men ready to do battle, and if necessary to distor the integrity of the Union; our resources and energies are unimpai ed: we have reason to be hopeful for the future, and there fore that kful for the past.

The toy lty, honor and patriotism of the state of Misconsin have been mably sustained by her brave some upon every field of builts where they have been called upon to vindicate our national flag. The just prids which we feel in the bravery of our noble soldlers should fill our nearts with graduals to Almighty God, who has su tained them in their hour of trial. For these and other uncounted ble sings which the

infinite goodness of Gothas voucheded to us during the pist year, we should thank Him from the depth of our hearts. And therefore, and in scoordance with the if ne honored custom, I do hereby appoint THURS. DA f, the 27th day of November, 2502, as a DA or HENESCHIEG AND REST, and recommend to the people of this state on that day to absent, from secular labor, and to assemble at their usual places of worship to show their grateful hearts to the buiefle at Roler of are lavited to be present. the Universe, and to pray for a species suppression of the rebellon, and for peace to our distract d country. In to timing whereof, I have hereunto subscribed my name and caused the Great Send of State to be affixed, this 31st day of Coro-[SEAL.]

SINGER & CO.'S STANDARD MACHINES

No. 2, Standard Shuttle Machine, formerly sold at \$100,

S the best Machine in the word for Family Sewing and Light Manufacturing purposes; Price, (with Kommer,) and beautifully ornaments i, 1991, 1995 FIFTY DOLLARS.

The Nos. 1 and 2 machines are of great capacity and application for manufacturing purposes.
Our No. 3 machines are especially adapted to all kinds of light and heavy

## LEATHER WORK,

in Carriage Trimming, Boot and Shoe Making, Harness Making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the largest sized dashes. There is scarcely any part of a Trimmare's titching that cannot be better done with them

arm long study to the series of the series and sized dashes. There is secreely any part of a Trimmers' stitching that cannot be botted done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines is 24 inched long, and the shoutle will hold six times the usual quantity of thread. The large machines work as fast as small ones. We would ask for our Letter A machines, the special attention of Vest Makors and Dress Makers, and all those who want machines for Light. Manufacturing purposes. They embody the principles of the standard machines, making like them, the interlock stitch, and are destined to be as calebrated for Funnily Sewing and it ight manufacturing purposes as our standard machines are for manufacturing purposes in general.

We have always on hand

Hemming Guages, Silk Twist, Linen and Cotton Thread on Spools, Best ie. Machine Oil in Bottles, etc., etc.

We manufacture our own Needley, and would warn all persons using our machines not to buy any others. We know that there are needles sold of the most inferior quality, at higher prices than we charge for the best. The needles sold by us are manufactured especially for our machines. A bad needle may render the best machine almost useless.

Our customers may rest assured that all our Branch Offices are furnished with the

We have made the above Reduction in Prices with the two-fold view of benefitting thopublic and ourselves. The public have been swindled by spurious machines made in imitation of ours. The meral in them, from the iron crating to the smallest plees, is of poor quality. Their makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good machines can be loade at moderate prices. The best designed machines, Badly Made, are slaway liable to get out of order, and are sure to cost considerable trouble and money to keep them in ropair. The qualities to be looked for in a machine are: extantly of correct action at all rates of peed, simplicity of construction, great durability and regulating of operation, with the least labor. Machines to condine these essen-

construction, great durability and registity of operation, with the inest tabor. Machines to combine these essential qualities, must be made of the bestmetal and finished to perfration. We have the ways and means, on a grand scale, to do this.

The purchasers of machines, whose daily bread it may concern, will find that those having the above qualities not only work well at rapid as well as slow rates of speed, but last long in the finest possible working order. Our machines, as made by us, will carne core money with less labor than any others, whether in imitation of ours or not. In fact, they are chesper than any other machine as a gift.
